New York, Oct. 4.—The Tribune's special says Hunter, who has been pardoned by the President, says in his petition that he proposes to devote himself to the pursuits of private life; that he submits loyally to the authorities of the United States, and recognizes the power of the General Government to establish its policy in the South. He will counsel conformity to that policy with as much peace and contentment as possible. He recognizes the encessity of submission, and feels the importance of repose to the country. He says that President Lincoln did not doubt that he, Hunter, would do what he could to ald in the work of peace and reconstruction in Virginia; that Mr. Lincoln expressed a desire to see him when in Richmond, and sent for him.

PETROLEO-CALCIUM GAS. PETROLEO-CALCIUM GAS.

O'NE OF THE MOST VALUABLE IMprovements of the age is the process of
manufacturing gas by the Petroleo-Calcium
Gas Company, of Wheeling, West Va., upon
patents of Dr. J. H. Connelly, from an almost valueless product of Petroleum O'll,
instead of the commination with line,
or line, and commination with line,
of line, and commination with line,
of line, and feet of Gas may be made by
any farm hand or stable boy of ordinary intelligence in three hours. It has been
thoroughly tested upon such a scale, at the
McLure House in Wheeling, and at the
ocurity residence of Mr. J. P. Gilchrist, near
the same city, as to fix the certainty of its affording entirely satisfactory results in the
production of small and large quantities of
Gas, and can be with great economy applied
to Private Residences, Seminaries, Hoelst, Faclories and Chies. It is superior to any Gas
alleitz, vascinability as to the safety, sim-Gas, and case small and large quantities of the friend can be with great economy applies to Frivide Residences, Seminaries, Hotels, Fuctories and Cities. It is superior to any Ganow in use, not only as to the safety, simplicity, practicability and great cheapness of manufacture, but for its superior brilliancy, soft influence upon the sight, and freedom from the sulphurous colors common to Gas. These facts the officers of the company will take pleasure in demonstrating to those desiring to adopt or interest themselves in it. The company will sell rights to manufacture in Towns, Counties, Districts or States, and direct attention to the following TESTIMONIA.
